UX Strategist, Designer & UI Developer

My Name is Josh Schoen. I focus on delivering solutions to solve user problems that increases business value and user consumption. I thrive on connecting design and development through agile processes to create truly unique and compelling experiences. I have designed and developed e-commerce experiences, AI/ML model management applications and real-time analytical applications. One of my true passions is building design systems and component libraries to promote consistent user experiences patterns that support system thinking.

Experience

Teradata
🗓 Feb. 2022 - Present
📍 Remote

Principal Experience Engineer
As a part of the UX leadership team I play a key role in UX strategy, team best practices, and processes. I also contribute to product design initiatives, coordinate customer discovery programs and lead product and UX requirements for design and development teams.

Digital.ai
🗓 Jul. 2020 - Feb. 2022
📍 Remote

Director, Design Center
As a part of senior leadership I managed a team of UX researchers, designers and front-end engineers. I led and contributed to the design system and component library initiatives. I also played a key strategic role in unifying the Digital.ai platform, products and capabilities through common services and user centric experiences.

ModelOp
🗓 Feb. 2020 - Jul. 2020
📍 Remote

Senior UX/UI Engineer
Designed, developed and led the front-end architecture of a greenfield AI/ML model management and governance enterprise application from proof of concept to a MVP.

Optum
🗓 May 2019 - Feb. 2020
📍 Eden Prairie, MN

Front-end Developer, Design Pattern Library
Developed reusable, responsive HTML components and drove roadmaps around the Optum Design Pattern Library for digital.

Teradata
🗓 Mar. 2017 - May 2019
📍 Minneapolis, MN

Lead UX/UI Front-end Developer
Web application developer focusing on customer experience. Designed, built and maintain applications for projects using Angular and Material Design.

Allen Edmonds
🗓 Sep. 2015 - Mar. 2017
📍 Bloomington, MN

E-commerce User Experience Lead
Designed and coded HTML, CSS & JavaScript for ongoing responsive website needs. Oversaw e-commerce feature changes supported by analytics and user testing.

Lancet Data Sciences
🗓 Dec. 2012 - Aug. 2015
📍 Burnsville, MN

Staff Design Consultant
Design consultant leveraging Tableau, MicroStrategy, HTML, CSS and JavaScript.

Education

Bachelors of Science in Design Technology
Specialization in Exhibit Design
Bemidji State University, 1996 - 2001

Masters of Information System Management
Specialization in Information System Tools
Keller Graduate School, 2009 - 2011
